

Insurance Certificates – As requested by mortgage companies

If residents are asked by a mortgage company to produce an Insurance Certificate, the document that verifies your Flood Insurance, here are the options to do so:

- go to website [www.binsurance.com](http://www.binsurance.com) and click on the blue button for request a certificate. Once there, the fields are to be completed with all the necessary information and our tech support team will process the certificate.
- either fax or email Bouvier directly with a copy of the letter that received from the bank or mortgage company.
- call Bouvier directly and they will then take all the necessary information needed to process the certificate request.

Bouvier contact:
